THE BACK OFFICE

Who Autommerce is for

Four kinds of operation. One catalog, one workspace.

01 / 04

The store

A supplier sheet landed this morning. Four hundred rows. Titles, specs and photos are still somebody's tonight.

02 / 04

The agency

The client wants five hundred products live by Friday. Hiring for every catalog is not a plan.

03 / 04

The brand

An assistant was asked for your best seller and described a product you do not sell. Your page gave it nothing to quote.

04 / 04

The fashion retailer

Shoppers cannot try it on, so they buy two sizes and send one back. Persona is the fitting room, inside the store.
