THE SHIFT

Try-on went mainstream.

Zara, Zalando and ASOS each shipped a fitting room. The independent store can have one too.

ZARA

An avatar, from two photos.

Face and full body. The avatar walks. Zara tells the shopper the image is generated, and may not match real life.

ZARA TRY-ON, ROLLING OUT FROM DECEMBER 2025

ZALANDO

Fit, measured in returns.

Pilots of the virtual fitting room cut return rates by up to 40% in jeans. The rollout to all customers is the 2026 plan.

ZALANDO, 2026. SIZE TOOLS PREVENTED 8% OF SIZE-RELATED RETURNS IN 2025.

ASOS

Your photo, or a likeness.

About 10,000 products on the iOS app. Own photo or an AI likeness. Each try-on loads in 4 to 7 seconds.

ASOS, 17 FEBRUARY 2026, WITH AIUTA. SELECT UK AND US CUSTOMERS.

YOUR STORE

You do not need their team.

Persona is the fitting room and the stylist, inside your store. One script tag. Your cart. Only what you stock.
