Bose QuietComfort Ultra Headphones — Make Every Listen Feel More Present

Bring more focus, dimension, and freedom to your daily soundtrack with Bose QuietComfort Ultra Headphones. Designed for listeners who want their music, podcasts, and favourite moments to feel less like background noise and more like a destination, they pair Bose Immersive Audio with up to 24 hours of listening time.

A more involving way to listen

Great headphones should do more than simply play audio. They should help you settle into an album, stay engaged through a long episode, or make a familiar playlist feel newly detailed. QuietComfort Ultra is made for those everyday pauses and high-focus sessions when sound deserves your full attention.

Step into Bose Immersive Audio

Bose Immersive Audio is the standout experience at the centre of these headphones. It is built to give your listening a more spacious, involving character, helping songs and spoken-word content feel closer to the moment rather than confined to the background.

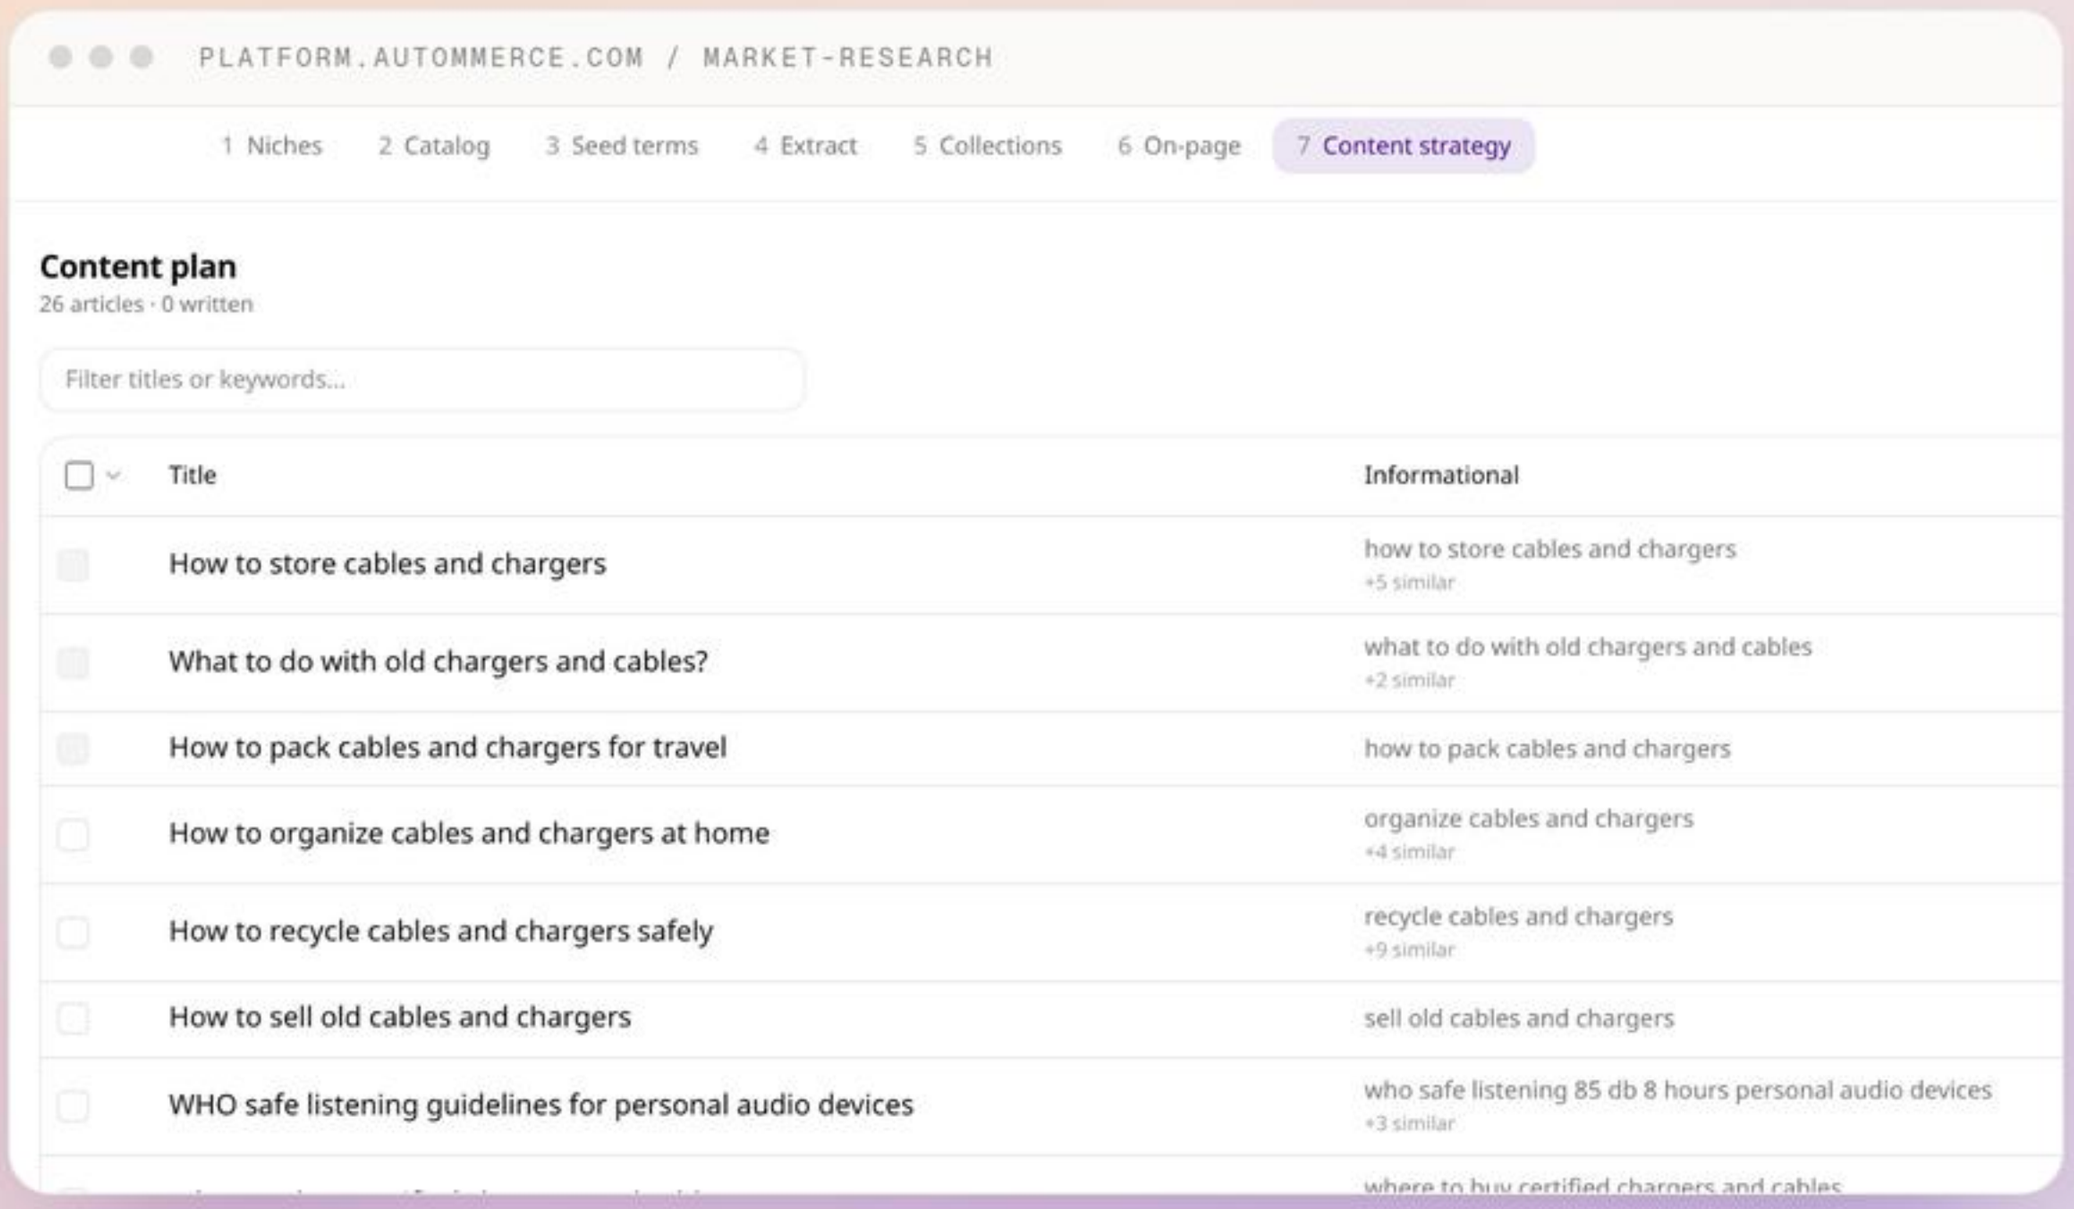

- **More presence for everyday listening:** make intentional time for the tracks and voices you return to most.
- **Made for varied content:** move naturally from music to podcasts and entertainment without
