THE BACK OFFICE

Who Autommerce is for

Four kinds of operation. One catalog, one workspace.

01

The store

Supplier sheets faster than any team can type.

02

The agency

Clients want catalogs live. Headcount is not the plan.

03

The brand

Agents read your page. Empty fields get skipped.

04

Fashion retail

Guessing size is the return you could prevent.

AUDIENCE 01 / 04

The store

A supplier sheet landed this morning. Four hundred rows. Titles, specs and photos are still somebody's tonight.

AUDIENCE 02 / 04

The agency

The client wants five hundred products live by Friday. Hiring for every catalog is not a plan.

AUDIENCE 03 / 04

The brand

An assistant was asked for your best seller and described a product you do not sell. Your page gave it nothing to quote.

The fashion retailer

Shoppers cannot try it on, so they buy two sizes and send one back. Persona is the fitting room, inside the store.
